FAN-TASTIC SAVINGS...

FAN-TASTIC PRICE!

RCA WEEK: The Distributor has reduced prices on certain models of RCA energy-efficient XL-100 and ColorTrak portables and consoles which use no more electricity than a 100 watt bulb. For a limited time, you save on both RCA and this energy-efficient ceiling fan, which also uses no more electricity than a light bulb.

THIS SUMMER: Set your air conditioning 8 to 10 degrees higher, without comfort loss. This Hallmark ceiling fan gently recirculates the heavier cooler air, which can save as much as 35% on cooling bills.

NEXT WINTER: Reverse the air flow so that the warm air is pulled off the ceiling. Set your thermostat lower and save on heating bills!
